Peter,

Hi.

I did not have any comments to the receipt response letter to Food and Water Watch. I did add a comma after the date in the first sentence (in the attached document).

We could use the word "potential" instead of "persistent," but only if we do not know that nitrate contamination is not persistent. I don't feel strongly about this recommendation and the letter is great as is, up to you.

Thanks,
Clarke

Clarke Thurmon
